– REPORT OF TRUSTEES OF TRUST FUNDS –

During the past year, the trustees have made substantial changes in the investments held by the town of Gilmanton to comply with state law which controls the types of investments a town can purchase. Through the sale and purchase of stocks and bonds, we have substantially improved the common trust fund and appreciate the services of our investment advisor, Mr. Harry W. Besse.

Because of the many inquiries made to the trustees, we would like to publicly state that our function is that of an investment role and any inquiries as to maintenance and purchase of cemetery lots should be made to the sextons of those cemeteries which have associations and to the town selectmen where there are no existing cemetery associations.

If you would like to create a trust fund for any purpose either cemetery care or community improvement please contact the town selectmen as they are the body which has to legally accept the trust on behalf of the town of Gilmanton.

GEORGE B. ROBERTS, JR.

Report to the Town of Gilmanton on**— CONSERVATION COMMISSION ACTIVITIES —**

Your Commission was a little lethargic this year due to a variety of reasons, but we accomplished a few things in spite of ourselves.

At the beginning of the year, we were involved with discussion on how to restrain the town dogs during the winter months to protect the few deer we have in town. Most people are aware that dogs kill as many, if not more, deer than hunters.

We were suddenly faced with a large dredging project on Crystal Lake that was being aired before the Water Resources Board in Concord. It involved the removal of 16,000 cubic yards of marsh in a bay diagonally opposite the town beach below the old Leather farm. The intent was to make a swimming area and put in docks. The water depth would be between 2 to 4 feet over approximately a 3 acre bay. We felt the bay would end up badly polluted by over-use and under-circulation of the shallow water. The removal of a marsh and its benefitting action to the water and wild life was certainly a step backwards in our mind. The Water Resources Board thought so too, and would not allow the project to go ahead.

Water sampling began in June starting at Shellcamp Lake. Results of samples taken there were much better than expected except on the shore of the development which demonstrated the pollution brought about in very warm water by a little over use and a few poor septic systems.

Sawyer Lake has not changed a bit in spite of the fervent wishes of the Sawyer Lake residents and the blessings of the State Water Supply and Pollution Commission. The State also pronounced Crystal Lake clean after they tested it this past Fall. (Week of October 6th). However, the value of the State analysis and report is questionable for a variety of reasons. Clearly the obvious ones in regards to Crystal Lake are in saying that the lake is clean based on water sampled that has cooled to a point below that in which bacteria cannot live and reproduce and that water was sampled at a time of relatively low usage of the residing shoreline septic system. For the same reason, Sawyer Lake surface water would be drinkable in the Spring when it is cold and having cleared up over the Winter but the same surface water holds heavy growths of pathogenic bacteria a few months later because of high water temperatures and sewage leaking into the water.

It is very heartening to see that the Crystal Lake people have stood up to do something about their water. With their diligence and perserverance, I expect Crystal Lake will not get any worse and may well improve.

Samples taken from Loon Pond showed some improvement over the previous year. I hope those people that haven't yet thought it possible that their poor septic systems may be harming the water will consider this. Septic systems near the shoreline of any lake or pond are a temporary system, at best, unless they are entirely enclosed and periodically pumped out. The system that flaws eventually uses up the filter bed and then pollutes the water.

Now to let it go is a moral question. It is easy to think "no smell - no unsightly mess - therefore no problem for me." But how about the kids who come down with impetigo and other skin diseases, or ear infections, or the occasional dysentary from swimming in contaminated water? Must we turn our minds off from this too?

It is your water to use and enjoy - why help to poison and kill a lake?

Your Commission finally would like some suggestions about what to do.

1. About our dogs during the winter months.

2. About the large number of out-of-State hunters that invade our woods every Fall. One suggestion was to close the town entirely to outsiders except by written permission of the landowner where the person wishes to hunt.

Please bring or mail any suggestions to any member of this Commission.

1. In spite of the fact that this Department has made a major commitment to pay the total costs for the construction of our new fire station, we have continued to defray part of the costs for the procurement of new equipment as is indicated in the foregoing financial statement showing a transfer of \$291.27 from our SPECIAL Account (own funds) to our PRIMARY Account (Town Appropriations).

2. Among the several items of new equipment purchased during the past year have been additional boots and helmets for the protection of personnel. Expenditures for radio equipment have been made to provide Engine Three (1250 Tanker) with this most essential requirement for good fire service.

3. Other than our regularly maintained endeavors toward providing an outstanding fire fighting service, and to continue to enhance our training toward that end, our principal activity during the past year has been the accomplishment, in an orderly manner of the several steps required for the final completion of our new fire station.

4. The first step was to seek competitive bids for the \$50,000.00 Municipal Bond Issue for the construction. This bond issue had been approved by the Townspeople at Town Meeting March 11, 1972 by a favorable vote. For this vote of confidence, the members of this department are most grateful. Competitive bids for the subject bonds produced the best bid of 5.7% from the Farmington National

Bank, Farmington, N.H. The bid for a twenty year payment schedule was accepted as the one best meeting our estimated capacity to meet payment requirements. This program obligates the Department to meet an annual payment on the principal of \$2,500.00 plus interest of \$2,850.00 for the first year with an annual reduction of interest at the rate of \$142.50 per annum.

5. The several essential steps toward demolition of the old school house, with salvage of much useable material; formalizing and dispatch of invitations for bids on the new construction; review of all bids received (6); acceptance and further negotiation of successful bid which was awarded to H. J. Lank, Inc., Center Barnstead, N.H.; site preparation; ground breaking and the overseeing of all steps toward the final construction were accomplished with dispatch.

6. In spite of what might reasonably be considered as delaying factors, adverse weather conditions included, typical to most any construction project of this magnitude, the new building was finally accepted on December 17th, with all vehicular equipment being moved to the new station as being fully operational that week.

7. FURTHER FINANCIAL CONSIDERATIONS:

8. With several items of interior work to be accomplished by the labor of our own personnel plus landscaping and paving we have planned to delay an appropriate dedication ceremony until late in the spring of 1973. We plan this to be a community type of celebration of a major milestone in the history of the Town of Gilmanton and will endeavor to solicit a full measure of participation in our program.

9. In the meantime all members of this department take this opportunity to again express our thanks and appreciations for the many expressions of support and encouragement which we have received from the initial inception of this construction project to its ultimate completion; but most especially for the resounding vote of confidence which was rendered at Town Meeting last March on the most necessary municipal bond issue. May we again add a most humble but appreciative THANK YOU to ALL.

– GILMANTON CORNER FIRE DEPARTMENT –
(Peaked Hill)

During the past year, the Gilmanton Corner Fire Department responded to twelve (12) fire calls in our town, regardless of their location. One structural, the home of John Hughes on Nov. 5th. The kitchen area fully involved on arrival, fire having gone through the roof. The very prompt response of our personnel with aid from the Iron Works and Belmont, we quickly had this fire under control. Heavy fire and smoke damage resulting.

- (1) Fire resulting from downed electrical wire
- (1) Chimney fire, no damage
- (1) Truck fire
- (2) Grass fires
- (3) Dump fires

Our calls to the dump were kept to a minimum this past year, due to a program of control burning at the request of the Selectmen.

- (3) Responses to the I.W.

As all fire calls in Gilmanton are an automatic response. If our assistance is not needed, we can be notified by radio and we return to quarters.

(12) Mutual Aid responses from this Department either for a cover truck or aid at the fire.

- (1) Call for resuscitation
- (1) For rescue
- (1) For rekindle
- (1) For special service

As always, we volunteers of the Gilmanton Corner Fire Department continue in our efforts to keep pace with an ever increasing demand for our services which we feel can offer more for monies spent than any other service in our town, and show a return for same, as in the instance of reduced insurance rates for properties beyond the two (2) mile and within the three (3) mile limit that is now in effect, mainly because of the dispatch center in the Lakes Region Mutual Fire Aid Association and continued growth of the individual departments.

Training and fire schools have been held and attended this past year with future plans for more of the same.

In April, 1971, the Town of Gilmanton became the first town in the State of New Hampshire to enter into a contract with Law Enforcement wherein a town contracts with an established Law Enforcement Agency to police their town. In this case, the Sheriff's Department of Belknap County entered a contract with the Town of Gilmanton. This program was financed on a 60/40 basis with a grant from the Federal Government, the grant absorbing the largest percentage. In all probability there will be no Federal Funds awarded for the Town of Gilmanton in 1974 for this program. However, at this time, there is an indication that for the year 1973, the program might be financed on a 25 or 50 percent grant by the Federal Government.

The contract calls for a 12 hour coverage, yet actually all calls are taken care of regardless of time and a 24 hour patrol is granted to the Town of Gilmanton.

By calling the Sheriff's Office, 524-3830, guarantees that a complaint or emergency will be answered because this office is manned 24 hours a day, 7 days a week.

To report a crime, accident or any emergency:

(1) State location where police are needed; (2) What has happened; (3) State clearly, your name, address and telephone number. If possible, obtain description of person or persons involved, write down registration number if vehicle is used.

Start a crime check in YOUR town. In cooperation with the National Sheriff's Association, we are trying to reduce crime in rural areas through the "Neighborhood Watch Program". This Program is based on YOU reporting anything suspicious in the area of YOUR neighbor's property and he in turn reporting any unusual activity of HIS neighbors.

The Belknap County Sheriff's Department wishes to thank Mr. Osler, Mr. Bickford and Mr. Nelson, the Board of Selectmen for their continued cooperation and understanding shown us during 1972 and we will continuously strive to protect the citizens of Gilmanton and provide them with efficient Law Enforcement.

DONALD C. ALDEN
Sheriff

— REPORT OF THE FOREST FIRE WARDEN & DISTRICT CHIEF —

In New Hampshire, forest fire control is a cooperative State-town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegally and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town except backyard cooking fires. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9:00 a.m. and 5:00 p.m. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disastrous and devastating force. Only you can prevent a forest fire.

Number of fires reported and acres burned - 1972 season:

STATE	410 fires	361 acres burned
DISTRICT	102 fires	55½ acres burned

– CIVIL DEFENSE REPORT –

I reported last year that one of our fire departments had purchased a truck through the Surplus property program. That truck is now in service as a forestry unit.

The new Rescue Truck purchased as a result of the last town meeting has been outfitted and in service for quite some time and is, in the opinion of the Rescue Squad members, a great improvement in the type of service they can now offer.

A new collapsable stretcher has been purchased by this office to facilitate the handling of patients by the squad members.

A breakdown of activities for the rescue squad was not available for inclusion in this report.

It is known by your director that some of the squad members have availed themselves of a very important and intensive course and are now qualified as emergency medical technicians affording them the knowledge to better serve the people of the community.

Plans for a course in basic first aid is being planned for the near future and I urge all to participate as the knowledge gained could at some time prove invaluable.

Again, my deep appreciation for all your support.

Respectfully submitted,

FRED LaROCHE

— STATE REPRESENTATIVE'S REPORT —

George B. Roberts, Jr.
House Majority Leader

As the 1973 Session of the New Hampshire General Court gets underway, it will prove to be a busy schedule with many of the recommended bills being controversial. As of this date, it is anticipated that nearly 2,000 bills and resolutions will be introduced and acted upon.

I start this session again being in the position of House Majority Leader and Chairman of the House Rules Committee as well as membership on the Committee of Interstate Cooperation. These assignments and many administrative duties connected with the House dictate that at least three days a week are spent in Concord from 8:00 a.m. to 6:00 p.m. Other special interim committee assignments also demand time of the two remaining days of the week. As I was re-elected Chairman of the Belknap County Delegation to preside over matters concerning county government, the next two years will perhaps be the busiest since I have been your state representative.

Belknap District 4 now includes the towns of Alton, Barnstead and Gilmanton and requests for special legislation and legislation specifically dealing with my district have multiplied.

One such request is now House Bill 87 - an act providing for the acquisition of Shell Camp Pond in the Town of Gilmanton and making appropriations for the purchase, repair or reconstruction of this dam. This bill was introduced by request of taxpayers and residents in the town of Gilmanton particularly in and around Shell Camp Pond area. As of this date, House Bill 87 is in committee and while legislation of this type is not easy to pass, I am in hopes to report by July 1st that the town of Gilmanton will be relieved of the problems that this poorly maintained dam has created.

Another bill of concern to this local area is a bill which I will co-sponsor to establish that the fire underwriting for the State of New Hampshire be done by the New Hampshire Insurance Department to create a more accurate criteria for fire rates. This underwriting is presently being done by a private group paid for by the fire insurance companies doing business in New Hampshire.

I have made appointments to meet with the Commissioner of Public Works and Highways to bring to him local requests for highway improvements and betterment projects. Among the requests that I will bring to him will be a betterment project for Route 107 near the Belmont town line and a complete resurfacing project of Route 140 along with a request for betterment projects from the Gilmanton Iron Works section to the Alton village.

In the past, there have been many favorable comments about motor boat requests on the ponds and requests for rights-of-way to our public bodies of water. Because of our success in these projects, there will be another request for a right-of-way to those ponds of water in Gilmanton which presently do not have a

legal right-of-way or access to the water.

As in the past, I will continue being available to town officials and agencies to report to them about changes in state laws.

As always, I will try to continue to be responsive to your comments and suggestions regarding state legislation and look forward to your opinions and suggestions. This year, with a more accurate mailing list of constituents, I will again be reporting to you and look forward to your response.

Sincerely,

GEORGE B. ROBERTS, JR.

7. Voted and seconded to insert the following in our school record for the year 1971-72 Town Report.

Given to George Roberts, Representative, by Col. Emond, to be taken back to the State Legislature.

GLORIA R. MUNSEY
School Clerk

WHEREAS, the present Gilmanton Elementary School building was built during the period 1965-66 with anticipation that New Hampshire School Building Aid funds, sufficient in amount to meet 30% of the annual obligation for payment of principal on bonded indebtedness would be provided by the State of New Hampshire pursuant to the provisions of Sections 15A and 15B, Chapter 198, New Hampshire Revised Statutes, annotated, and,

WHEREAS, such funds have been received by the Gilmanton School District in the amount of \$4,500.00 per annum for the years 1967 through 1970, and,

WHEREAS, the New Hampshire State Legislature has provided payment of only \$2,477.83 or 55.6% of the amount due for this purpose for the year 1971, and,

WHEREAS, we do recognize that Section 15E, Chapter 198, NH RSA does provide for a pro-rata distribution of available funds when inadequate funds are provided, and,

WHEREAS, WHEN ADEQUATE FUNDS ARE UNAVAILABLE to meet the subject School Building Aid obligations of the State of New Hampshire the only recourse available to the citizens of Gilmanton to meet the obligation of the Gilmanton School District is an unwarranted addition to the local property tax burden, and,

WHEREAS, if public school construction is to be advanced in the State of New Hampshire the integrity of funding for obligations of the state pursuant to the

provisions of the New Hampshire School Building Aid Program must be inviolate, and,

WHEREAS, it is a primary purpose of this Gilmanton Elementary School to teach its students the fundamental principal of adherence to obligations, contractual or implied, now therefore be it

RESOLVED, that we, the citizens of the Gilmanton School District, at School District assembled, this 6th day of March, 1972, so direct that our Representative to the Great and General Court of the State of New Hampshire, Mr. George B. Roberts, Jr., advise the members of that august body of our displeasure and great concern as to the serious question of the indicated lack of adequate funding, and be it further

RESOLVED, that Mr. Roberts also advise that body it is our opinion that in the furtherance of school construction programs, School Building Aid, provided for under the provisions of Sections 15A and 15B, Chapter 198, NH RSA, must be considered to be firm, contractual obligations of the State of New Hampshire, for which adequate funding is mandatory, with timely payments being made to applicable School Districts, thereby precluding provision of deficit funding by local property tax.

– TO THE PEOPLE OF THE GILMANTON SCHOOL DISTRICT –

It has been my pleasure to report to you, over the past two years, how well your elementary school has run. It is still a joy to visit in the school and to observe the progress that is being made. The faculty is very dedicated and all are doing a conscientious job in educating the children of the community.

Your school, as any public school, has to take the children "where they find them" and proceed from that point to give them the education that they need. In checking with the various secondary schools where Gilmanton students attend, it is found that generally the Gilmanton students are well prepared. There are some areas, such as Industrial Arts and Home Economics which are lacking. In the academic areas, however, the students are well prepared and progress according to their ability and interests.

As this is being written, the question is being asked as to what will be Gilmanton's role in providing secondary education for its young people in the future. By the time this report is presented to you, a determination of some sort will have been made. Regardless of the outcome of the AREA vote and the Gilford School Bond vote, I urge the people of the town to continue, as they have in the past, to provide the best educational opportunities that are possible.

Education is expensive and will continue to be so for years to come. There are cases concerning the methods of expenditures for education before the U.S. Supreme Court at present. It is expected that decisions will be reached in the Spring. It appears that there will be required charges in the method of financing schools within the next few years. The reason, of course, is not to deny any students a proper education because of their living in a low economic area. These changes will not reduce the total cost of education but will redirect the method of apportioning those costs and expenditures.

As the world changes and there are new scientific and human developments, education will have to change to meet those developments. No longer can any school district feel that those changes will not affect them because the citizens are much more mobile than before. Do not expect that your young people will always reside within the confines of the present district lines. Many of you have come from and will go to various other parts of the country and world. Gilmanton is a good place to live and it is sure to attract more people. In order to prepare the youth of the community, outside changes must be recognized and education must change to meet the new challenges. I trust that the people of Gilmanton will be willing to provide the necessary educational tools for those meeting the competition from people of other areas of the world.

It has been my pleasure to have worked with the fine School Board members and the people of the community over the past five years as your Assistant Superintendent and then your Superintendent. My only hope is that I have helped the children of the community. It has personally been a rewarding experience.

Respectfully submitted, JOHN P. BALL
